

6B5.9 RANGE:

ADAPTABLE POWER. ENHANCED PERFORMANCE.

WHAT MAKES 6B5.9 SO SPECIAL?

Believe in the uninterruptible power of these durable 90-170 kVA gensets powered by the proven **Mechanical** 6B5.9 series engine and microprocessor-based controller. These reliable gensets are the perfect choice for your power needs. Its compact footprint helps reduce transportation costs as well. **Advanced Microprocessor-Based Sync ready PS0600 controller.**

Get the 6B5.9's advantages working for you.

ALL THE ADVANTAGES

SUPERIOR PERFORMANCE

The 6B5.9's higher ambient capability meets all leading standards, including EMI/EMC and ISO8528.

SOUND ATTENUATED

Best-in-class build quality, carefully sound attenuated for quiet operation.

EASE OF OPERATION

Built in auto mains failure functionality & integrated fuel tank for uninterrupted operations.

AESTHETICS

Unique design for enhanced system performance, with optimized footprint.

RELIABLE POWER

A highly reliable genset for uninterruptible power from a durable engine with an optimum power-to-weight ratio, all designed, developed, and manufactured by Cummins.

ENHANCED SAFETY

Enhanced safety features with UL94 fire retardant foam, with new power cable layout, integrated CT's, and superior power cable & harness specification for safe operations.

ADAPTABLE POWER WHEREVER YOU NEED IT

Construction* | Agriculture and farming* | Hotels | Healthcare and hospitals | Residential and light commercial | Public infrastructure
